

About the Founder

My name is Gregor Maria Eisele.

I am the son of the founders of Litios Light Crystals. I am a Litios Diamond Light Priest and a Litios Christ Light Priest. I am a spiritual teacher and an artist. Since my childhood I have always been in contact with angels. My aim is to enhance the light-consciousness on earth!

I grew up with meditation and prayers. My main guidance have always been Mother Mary, Jesus Christ, Padre Pio, Archangel Michael and the Archangels. However, I have never had the courage to tell others about my spiritual life. My inner child was trapped. I was not able develop my talents and abilities. I studied business and worked in international consulting companies in Zurich and

Hamburg. I realized that this is not my life plan. After having passed the Diamond Light Priest Training in 2015, I found courage and I knew that something will change very soon. I continued to meditate deeply with the Archangels, Ascended Masters, Lightful Devas and Cosmic Star Brothers and Sisters of Light.

The Litios Light Crystals helped me to go through this process of transformation. I received the vision to manifest more love, more light and joy on earth, especially for the new generation. In 2015 during a group meditation, my heart was touched by Lord Krishna. Then I decided to change my life!

Thus, I founded the spiritual company “Young & Spiritual” in 2016. Now, I practice Litios Meditations, Kundalini Yoga, I paint spiritual pictures and design spiritual bracelets. I visit spiritual events and expos across the whole earth. I get to know many heart-opened people and I follow my vision and my divine life plan!

I am convinced that everyone who opens the heart for the Angels, Ascended Masters and the Lightuniverse will be inspired with a new divine life plan. Your divine talents and abilities will be given back to you and the higher love and joy will be in your life!

So don't let yourself be distracted from the small inconveniences of this world or from the opinions of others. Have faith in your heart, for you know that God is with you and in you! Follow your true divine life plan.

Love and blessings from my heart,
Gregor
