FALL / WINTER 22

vanLaack

Dear van Laack customer,

on the following pages you have the chance to get to know our new fall/winter collection.

The exclusively developed materials of the season are characterized by soft feel and voluminous lightness, pampering you with luxury on the skin. Each piece is a masterpiece without compromise, as van Laack teases with subtle elegance.

Our design language is straightforward and feminine. Agelessly relaxed.

The theme of the collection - *Luxury on Your Skin* - is also visually evident through a selective color harmony. Neutral shades such as Cream, Powder, Blush and Shadow are enchantingly beautiful as monochrome looks and also with each other. In combination with nut colors like Almond, Hazel and Dark Walnut these complement the calm and elegant color image, which is especially close to our hearts this fall.

Enjoy van Laack.
